By Michael McIntosh : The Gun Review Book ive had nothing but bad luck with the 870 anyone hear of the rem 7400s where the lugs shear and the gun can explode remington is garbage and to the author the visit the gun pub and restaurant in docklands home of outstanding beer and cider great wines mouth watering fresh food and exceptional

service The Gun Review Book:

4 of 4 review helpful Almost Excellent By Savannah AL Michael McIntosh is America s most celebrated gun author and deservedly so So why only 4 stars This book is a great one stop shop for approximately 30 shotgun reviews The author is objective with wonderful prose The only thing I found lacking was the photography One close up shot of the receiver of each gun under less than ideal light conditions Shotgun McIntosh discusses both new guns and models commonly available on the secondary market and includes a chapter on best buys It is an indispensable buyer s guide that s sure to appeal to anyone interested in double guns
