3 of 3 review helpful Good nuggets of information in a sea of questionable philosophy By Walter W Olson Ph D P E I have mixed feelings about this book I think the author goes over the deep end in the first section of the book particularly where he discusses whether or not a deer can read your mind Why he would choose to write about human electromagnetic fields is way beyond me As result I was ready to stop reading t Blood in the Tracks offers visionary thought and insight into what it takes to consistently harvest trophy mule deer Whether you're a seasoned hunter or a novice Blood in the Tracks has everything you need to become a better mule deer hunter
