0 of 0 review helpful Wonderful By Peter This is a very interesting book The writing is funny and lively Yes is about fencing but also about the tribulation of elite athletes and the splendid adventure of being human It ends abruptly after the Athens Olympics afterwards she got herself divorced remarried had a child and went to two more Olympic Games retiring after a 9th placement in London So an upda Prior to the 2004 Athens Olympics few Canadians outside fencing circles knew very much about Sherraine MacKay but as the countdown to those games began her name became more and more familiar and while the world of fencing had been up to that time an esoteric sport at best it too was suddenly thrust into the limelight It helped of course that in the last World Cup of the season prior to the Games MacKay had won gold her second that she had been rank Sherraine MacKay is not just another athlete and Running with Swords is not just another sports book MacKay is able to see the irony and humour in a life pursuing athletic excellence Whether staying in youth hostels to save money or using her broken Spanis
