We're Gonna Die Too: More Humorous Tales of Close Calls in Alaska's Wilderness:

2 of 2 review helpful Good sequel to very good book By Cheryl Sharpe The title of this book with its too where two could have been is a good introduction to the types of stories within its pages While the original book was very good with various humorous stories of how the author nearly got himself killed in Alaska this book focuses on other people It is still quite entertaining even for someone who doesn t hunt o Bob Bell s lived a long and colorful life but there were times when it looked like it might be cut short Join Bob his eccentric group of friends and his long suffering family as he tells the tales of how Alaska s weather geography and wildlife all tried to kill him and other people
