Binoculars, Spotting Scopes & Riflescopes:

1 of 1 review helpful There are several other much better books on this topic By Darren Keller This book was highly recommended by many in the birding sector of optics users All I can figure is they're all friends with this guy The book is horribly organized I'm sure he just compiled articles others have done same but done it well he wrote on different types of optics binoculars spotting scopes etc But there a Sport Optics is a helpful guide for purchasers of binoculars riflescopes and spotting scopes for use in hunting bird watching astronomy nature viewing and other hobbies The book helps one make the correct purchasing decision after considering the various optical parameters with the intended use for the product The author has been in the optical industry for over 50 years selling and designing optical instruments and intimately knows optics
