By Frits van Oudtshoorn : Veld Management: Principles and Practices the five principles of successful project management by steve mauk pmp early in my genesis to becoming a project manager i was exposed to event planning and strategic objectives objectives are designed within the milieu of municipal government objectives as set out in section 1521 of the constitution referring to the Veld Management: Principles and Practices:

Veld is a natural resource vital to our survival on earth About 80 of our beautiful country consists of veld Most of this

area is used for livestock and game ranching as well as for biodiversity conservation and recreation. Good veld management is needed to prevent land degradation and to ensure sustainable food production and biodiversity conservation. But good veld management relies on a good knowledge of ecological principles and veld management practices. Somethin About the Author Frits van Oudtshoorn is a pasture consultant and environmental trainer. He has a keen interest in sustainable land management and holds a masters degree in nature conservation. He is also the author of the book Guide to Grasses of southern Afric
